

Tips to fix your WiFi speeds!

ACT
FIBERNET

Stay within a radius
5 meters of the router to
get optimum speeds

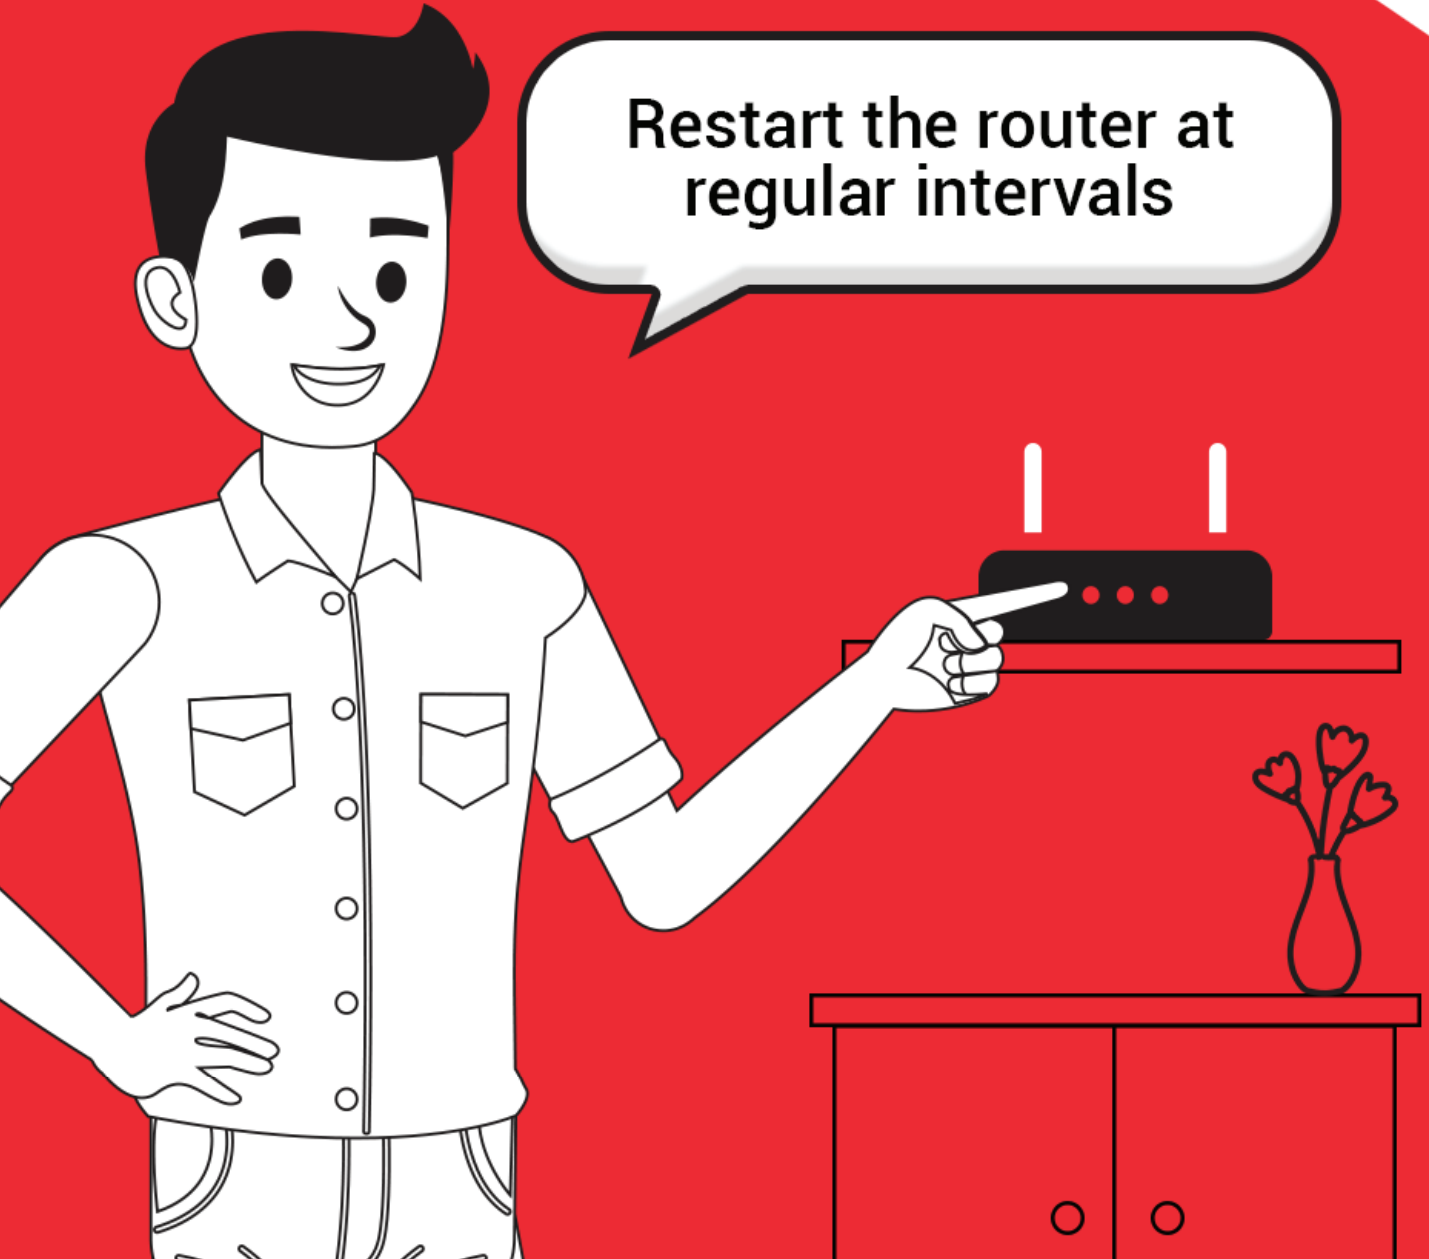

Ensure you disconnect
VPN while browsing

Avoid HD video streaming
while video conferencing

**Restart the router at
regular intervals**

Restart the video-calling app if there's congestion

Connect your device to the network with a LAN cable

Do not leave your system
in hibernate mode.

Do not leave your laptop
on the bed as it leads to
overheating.
